

CAPABILITY STATEMENT

Solutions That Strengthen What Matters

DeNovae Strategy helps organizations strengthen operations, solve complex challenges, and deliver better outcomes. We combine disciplined program execution, workforce and operational expertise, data-informed decision support, quality management, and strategic advisory services to support mission-driven organizations.

Our focus is practical: align people, processes, information, and strategy so clients can execute with greater clarity, accountability, and measurable impact.

Strategic Planning • Management Advisory Services • Organizational Assessments • Change Management • Stakeholder Engagement • Program Evaluation • Performance Improvement • Implementation Planning

WHY DENOVAE

Built for Complex, Mission-Driven Work

DeNovae is structured around a simple principle: **strong outcomes require more than advice**. They require disciplined execution, capable people, reliable information, and processes that can stand up to scrutiny. Our multidisciplinary approach allows us to support clients from strategy through implementation while remaining focused on the operational realities that determine success.

MISSION-ALIGNED EXECUTION We translate objectives into organized work, clear accountability, and practical execution.	MULTIDISCIPLINARY SUPPORT Our capability model connects operations, workforce, data, quality, healthcare support, and advisory services.
PERFORMANCE FOCUSED We emphasize measurable outcomes, process discipline, visibility, and continuous improvement.	INTEGRITY IN DELIVERY Our approach is grounded in transparency, accountability, responsiveness, and responsible stewardship.

SERVICE DELIVERY APPROACH

From Challenge to Outcome

01 UNDERSTAND Clarify the mission, operating environment, requirements, stakeholders, and desired outcomes.	02 ALIGN Define priorities, roles, measures, resources, and an execution approach suited to the client environment.	03 EXECUTE Deliver structured support with disciplined communication, coordination, documentation, and quality controls.	04 IMPROVE Use performance information, feedback, and lessons learned to strengthen results and sustain improvement.
